Microsoft® PowerPoint® for Office 365™ : Part 2

About This Course:

Meetings, instruction, training, pitches; these are all a part of our daily lives. We are often called upon to deliver presentations with little notice, at multiple venues, and with varying requirements. And, some of these presentations include sensitive

information that needs to be guarded. Given all the variables, it may seem an overwhelming task to deliver your content, on time, to all audiences, and to only those who need to see it. Oh, and by the way, you need to make it interesting, informative, and memorable. So, how do you do it? Without the help of a robust set of tools, it would be nearly impossible. But Microsoft® PowerPoint® provides you with a variety of such tools that can help you deliver content in nearly any situation, while saving time and effort. By taking advantage of these tools, you will be creating presentations that not only stand out from the crowd, but also don't consume all of your available time.

Course Objective:

- Customize presentation templates using Slide Master view and themes
- Apply advanced animations and transitions to enhance visual flow
- Embed and manage multimedia elements such as video and audio
- Use hyperlinks, action buttons, and sections for interactive slide navigation
- Collaborate on presentations and track revisions
- Prepare and rehearse presentations for confident delivery

Audience:

- PowerPoint users who have completed a beginner-level course or have equivalent experience
- Business professionals creating client presentations or internal reports

Prerequisites:

- To ensure success, students should have experience using PowerPoint, running within the Windows® 10 operating system, to create, edit, and deliver presentations

Course Outline:

Lesson 1: Customizing Design Templates

Topic A: Modify Slide Masters and Slide Layouts

Topic B: Modify the Notes Master and the Handout Master

Topic C: Add Headers and Footers

Lesson 2: Adding Tables
